

Shoe Size Conversion Chart

Centimetres	22.5	22.9	23.2	24	24.5	25	26	26.5	27.5	28	29	29.5	30.5	31.5
European	35	36	37	38	39	40	41	42	43	44	45	46	47	48
Aust. Men	2	3	4	5	6	6.5	7.5	8	9	9.5	10.5	11	12	13
Aust. Women	4	5	6	7	8	8.5	9.5	10	11	11.5	12.5	13	14	15

How To Convert Correctly

1. Place heel of foot against wall and indicate where foot ends.
2. Measure with ruler or tape measure.
3. **Convert 'cm's into European size** - do not convert Australian size into European! Australian footwear has half sizes for width, European does not!

Notes:

If you are between sizes you must go up to the next size - safety capped footwear does not stretch in length!

If you have an extra wide foot, also go up a size.
